Minutes

The Board met at Loveland Park.

We walked the trails that will be featured in the September Fun Walk.

We decided that there should be a long, a medium, and a short route.

John said he would try to get a crew to spruce up and trim some of the overhang on the long route.

We then proceeded to Cedar Lane where we toured the properties at 1605, 1625, 1629 and 1645 Cedar Lane which are flood prone and which the City has purchased with an eye toward developing a Park at the site.

Some of the Board members took the opportunity to speak with neighbors across the street from the site, who were receptive to the idea of a park.
